CALL'S NURSERIES

*Offer You Over
A Half Century of
Practical Experience*

The picture you see here is that of our founder, S. W. Call. From a humble beginning of one and one-half acres of fruit trees, Mr. Call started a business that has grown to 220 acres of **Fruit Trees, Ornamental Trees, Evergreens, Roses, etc.**

CALL'S NURSERIES have been in continuous operation since its founding. During the 63 years this nursery has acquired a "character," which surely marks its business relations with its customers.

We feel safe in trusting to an introduction by old customers, but expect that new customers will have to be "shown." This very thing we are willing and eager to do.

Should you desire any information not covered by our catalogue, please feel free to write us. We shall be pleased to give you advice or help you select varieties of Fruit or Trees and Shrubs for beautifying your home grounds.

We are interested in every tree we sell, for upon their success depends our success. Our oldest customers are our warmest friends.

It is our aim to give individual service on each order we receive. We have expert field men who know how to select trees and plants that will please you.

We have worked long and hard for a good reputation among our customers and friends. We have kept faith with them for 63 years.

May we serve you?

Special
NOVELTY ROSE
